### **Mikkie's Corner - Health & Nutrition**

Physical appearance vs A Healthy body. We get so caught up in TV, magazines, internet telling us what is desirable that we lose sight of what is important to our health. So many harmful diets and excessive workout regimes just lead to defeat. The body will sustain injury and your metabolism will suffer drastically. I am always amazed at what people are willing to do to "look good," with always disastrous results to follow. God gave you your body, treat it well with solid wholesome foods, balanced properly throughout the day and a proper effective exercise regime of about both 30 minutes each, cardio & weight training (I train athletes to go on stage with this approach - no need for hours in the gym). Be responsible for your health, glorify God, help humanity and ignore the secular culture that gives us false images of how we should appear.
