MIKKIE'S CORNER - Health & Nutrition

Valentine's Day every Day!

Your Heart Loves Omega-3's: Found in flaxseed oils, nuts, seeds, fish and fish oils and free-range eggs. Omega 3's are a type of essential fat the body must obtain from food it cannot produce it. Once consumed they are converted into absorbable forms of EPA & DHA.

Here's why your heart loves these foods:

1. They lower the risk of coronary heart disease
2. Reduce inflammation by decreasing C-reactive proteins, a marker of inflammation strongly related to heart attack and stroke
3. They reduce all-cause mortality and cardiac death
4. They reduce risk of sudden death as a result of irregular heartbeat when consuming at least 250mg/day each of DPA & EPA
5. They lower triglycerides, which are an independent risk factor for heart disease.
6. They protect against stroke, especially those with high cholesterol, EPA supplementation has also shown to reduce risk of recurrent strokes.

Grief to Grace is a 4-5 day psychological and spiritual journey providing safety and support for anyone who has suffered

degradation or violation through physical, emotional, or sexual abuse or neglect. It is appropriate for those who have endured rape, incest, or other forms or traumatic violation in childhood, adolescences, or as an adult. It is also suitable for those who have suffered abuse by a member of the clergy. This model of care provides therapy for the soul. The program is designed to help you experience the love and support of the suffering body of Christ as you journey through the Pascal mystery of your own life. This effective healing process combines Living Scripture with journaling, group activity and discussion, therapeutic facilitation, cognitive restructuring and grief work. It is a pilgrimage to discover the love, tenderness, belonging, safety, joy and peace that are often missing from the stories of abuse victims. Our next program will be held on April 19-22, 2018, at Seton House of Prayer.
