MIKKIE'S CORNER - Health & Nutrition

Wacky diets - vegan, vegetarian, lacto-vegetarian? These are not wacky but can be if done incorrectly, you could deprive your body of many essential or conditional nutrients. Nutrients are anything that provides nourishment essential for growth and the maintenance of life. 7 essential nutrients are Water, Carbohydrates, Proteins, Fats, Vitamins & Minerals. Within these nutrients are essential and nonessential (conditional) breakdowns of nutrients. Essential nutrients are things our bodies cannot make and we need to ingest them. Nonessential nutrients are stored and made from other conditional nutrients but at some point need to be ingested. The problem with people who decide to go to a form of vegetarianism put themselves at risk from deprivation of many essential amino acids and vital essential vitamins - that can be detrimental if not incorporated properly.

For the Love of God: Wellspring of our Existence for 175 Years:

We, the Franciscan Sisters of the Immaculate Conception of the Holy Mother of God (SFIC) with joyous hearts and a unified sense of gratitude

and of celebration for the blessings received during the 175 years since the founding of our Congregation would like to invite you to join us in celebration on June 24 at the Sacred Heart Cathedral with Mass at 5:30 pm followed by a Pot Luck Dinner. Because you have shared in our lives by your friendship and love we request that you join us in this anniversary celebration of our congregation. "For the love of God" will move us forward in simplicity, submission, love and penance in our participation in the mission of Christ, in our passion to heed the cry of the poor and in care for our common home, in our respective lands. "For the love of God" will empower us with a humble courage to a life of prophetic witness by the testimony of our lives that God is the Beginning and End of all love. As streams of living water, Love will flow on

"Holy Walkers! Kamloops" Congratulations to some impressive walkers who just completed quite the trek! Our very own Mary Stofanik who completed 800kml and Lorilee Friedel & Jacquie Wourms who completed 240kmls! Our world walk circumference goal just got a little smaller. Thank you ladies!

Environmental tip of the week - Hang your laundry!

This is a favourite time of year for many when it comes to laundry, especially in Kamloops. With the dry heat we experience it's quicker than the dryer and smells amazingly fresh - naturally! Did you know the other benefits of drying outside is that the sun is a natural disinfectant and will help bleach your

whites whiter, without the use of harmful chemicals. The city now allows clothes lines in many areas. If not get a laundry rack to put outside or hang over your deck and chairs or even from a window - so many ways to make it work!
