"Holy Walkers! Kamloops" Tranquille Creek" - 8am

For the Love of God: Wellspring of our Existence for 175 Years: We, the Franciscan Sisters of the Immaculate Conception of the Holy Mother of God (SFIC) with joyous hearts and a unified

sense of gratitude and of celebration for the blessings received during the 175 years since the founding of our Congregation would like to invite you to join us in celebration on June 24 at the Sacred Heart Cathedral with Mass at 5:30 pm followed by a Pot Luck Dinner. Because you have shared in our lives by your friendship and love we request that you join us in this anniversary celebration of our congregation. "For the love of God" will move us forward in simplicity, submission, love and penance in our participation in the mission of Christ, in our passion to heed the cry of the poor and in care for our common home, in our respective lands. "For the love of God" will empower us with a humble courage to a life of prophetic witness by the testimony of our lives that God is the Beginning and End of all love. As streams of living water, Love will flow on.

Christus vivit, Christ is Alive! Post-Synodal Apostolic Exhortation of Pope Francis.

In this post Synodal Apostolic Exhortation, published by the Holy On April 2, 2019, Pope Francis addresses young people, specifically, together with all the Church. "Inspired by the wealth of reflections and conversations that

emerged from the Synod of Bishops on Young People, Faith and Vocational Discernment held in 2018, the Holy Father has included those proposals that he "considered most significant" (n. 4). The document is organized in nine chapters and deals with difficult issues such as migrants and abuse, but also focuses on the important themes of youth ministry, vocation and discernment. If you would like to get your own copy of this historical document, call St. Joseph's store at 778-471-6100 to reserve a copy today.

Environmental tip! Heard the term buy local?

This is especially true for fruits and vegetables as they can travel an average up to 2,414kms or 500 miles before reaching your plate. The more steps there are between you and your

food's source the more chances there are for contamination. Food grown in distant locations has the potential for food safety issues at harvesting, washing, shipping and distribution. Buying fresh local food, not only preserves flavor and nutrients it also supports local farmers which helps preserve the land, air, water and biodiversity.
